**SCAN THE BELOW QR CODE TO CONTACT US
OR VIEW OUR OFFICE LOCATIONS.****How to scan our QR code with an iPhone:**

To scan a QR code on your iPhone, all you have to do is open the Camera app and point your phone at the QR code. Make sure the QR code is inside the box on your screen and then tap the pop-up notification.

1. Open the Camera app on your iPhone.
2. Then point your iPhone at the QR code to scan it. You don't have to fill the entire screen, but make sure that all four corners of the QR code are in view. Once you correctly scan the QR code, a pop-up notification will appear on top of your screen.
3. Finally, tap the pop-up notification at the top of your screen. This will take you directly to our website showing our office locations and our contact information for each location.

Note: If you do not see a notification pop up, make sure that you have the Scan QR Codes feature enabled. You can do this by going to Settings > Camera and tapping the slider next to Scan QR Codes. You will know it is turned on when it is green.

How to scan our QR code with an Android:

1. Press and hold the home button.
2. Then tap Lens. This is the circle surrounded by lines to the left of the four colored buttons at the bottom of your screen.

Note: A prompt will appear if it's your first time to use this feature. If it does, simply choose Allow. If you don't have Google Assistant on your Android, you can download the Google Lens app from the Google Play Store.

3. Point your camera at the QR code. You don't have to fill the entire screen, but make sure that all four corners of the QR code are in view.
4. Then tap the magnifying glass icon to scan the QR code. You can find this at the bottom of your screen.
5. Finally, tap the pop-up notification. This will take you directly to our website showing our office locations and our contact information for each location.
